council have planned and made it possible."

It was the consensus of the council that they would be hard pet to find a person of equal qualities to replace Mr. Booth.

In other business before the council the members discussed the problem of speeding in town. Specifically discussed was the drag racing that has been prevelent lately. Both Mayor Pack and Council man Hubbard described accompanying the police on different occasions and the problems the police are having. Mayor Pack reported on the success of the radar system and stated that it would be used more often in the future. The Mayor stated, "Drag racing has become a dangerous recreational fad that will not be tolerated in town." Mr. Hubbard said he was quite impressed with the local police and that they were doing a better job than the public knew about. He praised them for the great deal of good will in their tour of duty.

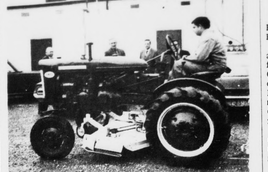
The mayor stated they were not out to get anyone and those that exceeded the speed limits in town slightly would probably get just a warning, but, outright reckless driving must be stopped and the offenders would be punished.

Mrs. C. H. Robinson, chairman of the water and sewage committee, announced that bids had been requested on the drilling of Well #2 and the bids would be opened Thursday, April 20, at 3:30 p.m. at the Town Office. Four bids had been sent out.

Councilman T. E. Conner spoke to the Council on request of a private citizen requesting the board check the present status of Stevens Creek. Councilman Conner stated that it was his understanding that the unfinished portion had been decided to the town . Mayor Pack said that although it had been deeded to the town it had never been accepted and was not sure but that the right of way was not wide enough, but, would check the records.

Clyde Campbell of Ethel St. requested the town give him permission to install a pump and line to pump sewage from his property to the town line on Oakleigh Ave. The council voted to allow Mr. Campbell to do so with the stipulation that his line is laid to the town's specifications.

Councilwoman Robinson requested the mayor to set a date for Clean Up Weeks in Appomattox. The mayor stated that the two weeks starting April 24 Monday, would be so designated.



Successful Classroom Project

This tractor was virtually rebuilt at the Vocational-Agriculture Department as part of the instructional program there, according to William C. Perrow, teacher, (seated on tractor). He brought the tractor to the Appomattox County School Board meeting Friday to show to board members (from left): R. H. Gray, Supt. Earl Smith, Dr. A. A. Fratrick and Mrs. Martin Webb and Lyle Garrette (not shown). The tractor will be used at the Primary School to cut grass and take care of other lawn work. Other tractors currently being worked on will be used at other school locations, says Mr. Perrow.

'MOON TALK'

With three astronauts speeding toward the moon on Tuesday afternoon, there was talk about the moon at the Appomattox post office, but most of it was devoted to phases of the moon, the best time to plant potatoes and "bloom days," days when, supposedly anything that one plants will bloom profusely but fail to produce fruit.

Julian Hamlett has already planted butterbeans, salad and a few other vegetables. He's going to wait for the "dark of the moon" to plant potatoes and onions. English peas will thrive with either time of planting, he says, but the vines are shorter when planted during "dark of the moon' days.

Hamlett also predicts that there's going to be some type of major disaster when the astronauts return to earth, "just like that big flood in Nelson county", he said. The flood occurred in August, 1969 as a result of torrential rains from Hurricaine Camille. Astronauts took a first walk on the moon July of 1969.

Nevertheless, he says he'd ride along if anyone ever offers him a trip to the moon. And as for "Red" Jamerson, postal clerk, he was going to plant potatoes on Tuesday but after listening to Hamlett, decided to wait for the "right day."

"Checking accounts are too complicated."

Besides, I don't feel easy in a bank."

A lot of people think checking accounts are more trouble than they're worth. Which is a shame. Because the truth is just about anybody can handle money better with the help of a Fidelity checking account. It's easy to open, easy to use, and it makes keeping track of your money as simple as 1,2,3.

With checks you know where your money is going. You waste less. And you save more. Best of all, it doesn't have to cost you a cent. So stop in and ask about a checking account of your own. You'll feel welcome and you'll get straight answers to your questions. One more thing. At Fidelity, we're an easy going group. Very informal. So come as you are.
